INTRODUCTION AND HISTORY

Who we are

RVA Associati SA is a Swiss company active since **1996** in the **insurance consulting and brokerage sector**, headquartered in Lugano with offices in Mendrisio, Bellinzona and Geneva.

The company is a **point of reference among local insurance brokers** and a **gateway to the Lloyd's market**.

Our history

Its **origins** date back to a Swiss spin-off of the historic Milanese insurance broker **Rasini Viganò** (RVA), which developed around the 1960s.

Having subsequently joined the **Fidinam Group** constellation, the company expanded its activities through the integration of local entities and portfolios, embracing in 2025 an active role within the international network specialized by Germany's GGW/LBU.

Our model

Insurance services are shaped around the client's needs, delivering **conscious and optimal security**.

RVA operates in today's complex environment by offering constantly updated expertise and the strength of a broad **network of partnerships** with leading insurers in Switzerland and abroad.

SPECIAL/INTERNATIONAL: THE LLOYD'S MARKET

Special Branch

LLOYD'S CORRESPONDENT

→ This branch handles particular, “special” requests, such as risks that fall outside the possibilities of the Swiss market, risks located abroad, or collectively lesser-known solutions. The activity is carried out by **RVA Associati SA** as an independent intermediary.

International Branch

LLOYD'S COVERHOLDER

→ This branch handles requests related to RVA's historic facility, which represents a valid alternative to the local market for domestic risks, while also serving as an exclusive Swiss solution for properties located across continental Europe. The activity is carried out by **RVA International SA** as an intermediary bound to Lloyd's.

WHAT IS LLOYD'S

A company of the Group

Lloyd's is the **world's specialist insurance and reinsurance market**. Founded in London in **1689** at Edward Lloyd's coffee house, mainly for the trading of marine insurance, the market is now based in the iconic building at 1 Lime Street.

What Lloyd's does

Lloyd's provides solutions both through individual negotiations at underwriters' desks, known as **open-market / correspondent** business, and through delegated underwriting authority arrangements, known as **facility / coverholder** business.

The Lloyd's Corporation has always acted as a **facilitator** within the insurance industry, providing market participants with protection, promotion, broad territorial reach, digitalization, and value-added services, such as sector studies and collections of local regulations.

Lloyd's Europe

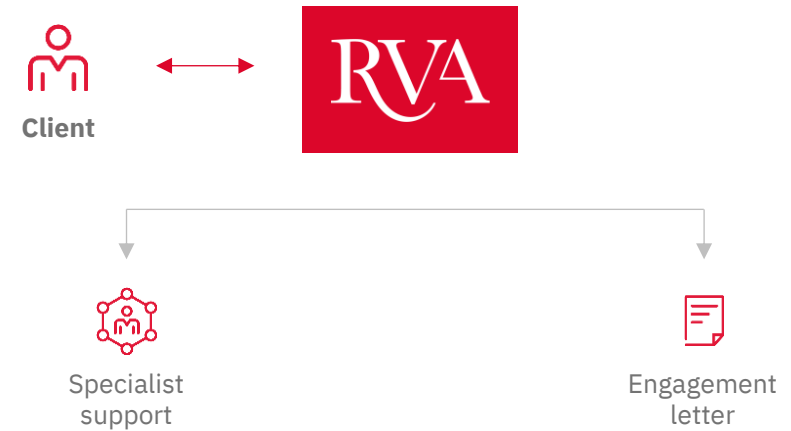

Following the implementation of Brexit in 2021, the corporate structure had to change in order to preserve business within the European Economic Area. Lloyd's Insurance Company S.A. (**Lloyd's Europe**) was established in Belgium in full compliance with the EU Solvency II Directive and with authorization to underwrite non-life risks from the United Kingdom.

MANAGEMENT OF COMPLEX CLAIMS

Example cases:

1. Incorrect retirement date applied by the occupational pension foundation to a member belonging to the “transition generation”, with a claim value of CHF 74,000.
2. Out-of-court and court-based legal reasoning for an accident case recognized by the insurer as an illness.
3. Partial compensation, 25%, for a hail event affecting a commercial business, with a claim value of CHF 3,000,000.
4. Technical assessment of a “machinery” business interruption claim and a “cyber” incident related to two separate claims, each with a claim value of CHF 100,000.

SPECIALIST SUPPORT

Management of claims that have proven complex or have resulted in an unsatisfactory outcome, through a specialist service combining technical insurance expertise with knowledge of the legal-insurance context.

ENGAGEMENT LETTER

Since this activity falls outside the standard “insurance services management mandate”, it involves a dedicated fee agreed upon in the engagement letter signed by the parties.

OUR ADDED VALUE

**Insurance optimization
&
periodic risk management
report**

**Regular insurance welfare
support.**

Insurance support visits for the
workforce of the client
company

**Personalized RVA Academy
service.**

Insurance-related training and
information, as well as training
sessions for client companies

CLIENT BENEFITS AND COLLABORATION STEPS

Benefits

- Single point of contact and specialist expertise
- Optimization of solutions and costs
- Negotiating power with all insurance companies
- Proximity

Collaboration

- Signature of the insurance management mandate and/or letter of intent
- Indication of the insurance portfolio and/or insurance needs
- Scheduling of insurance optimization and risk management activities, or of the desired consulting service
- Possible introductory meeting and coordination of support processes

Specialization, dynamism, trust:
these are our core values.
